

**ABC Network / ABC Wedding
MEMBERSHIP APPLICATION**

Dear **Colleague**,

Thank you for expressing an interest in joining the ABC Network (which includes the ABC Wedding Group), we believe it is an effective route to increasing business turnover, profitability and improving your product or service through the advice and help available at the discussion meetings.

ABC takes only one representative from each profession in which it can refer all appropriate leads for business opportunities. Therefore, please be specific about the specialist services you can offer ABC members and their contacts. For example, we may already have a "Printer" as a member, but you may offer specific expertise or skills within your field that would be acceptable. Any potential conflict would be discussed with the existing member, prior to any formal acceptance, if that member felt that there was room for another person that matches their business type, then the application would be considered in that light e.g. two disco representatives; who feel there is sufficient business to sustain both members!

The cost of membership, upon acceptance, is £150 per annum subscription, with an initial one-off registration fee of £50. In addition, ABC Network members pay £5 each breakfast meeting (may vary depending on venue and subsistence) towards the cost of the venue and the full breakfast provided. Members expressing that they are predominantly ABC Wedding members will only incur a lower meeting fee (to assist with any room charges or administration at their respective monthly evening meetings).

Please indicate your ABC preference: <input type="checkbox"/> ABC Network <input type="checkbox"/> ABC Wedding <input type="checkbox"/> Both

ABC Network / ABC Wedding **REFERENCES**

We endeavour to have members that offer professional quality business products and services, that we can all feel proud to recommend to our colleagues, associates, friends and family; knowing they will not be let down - but have the best experience imaginable. In order to achieve this we only work via recommendation and personal introductions. We therefore, need 2 to 3 references from either customers or suppliers that have a professional business association with you or your company for a reasonable period of time.
